10 - What constructive suggestions do you have for the improvement of this course or instructor?	
Douglas Franz	
Response Rate	4/12 (33.33%)
<ul style="list-style-type: none"> • - Post slides couple days before class. With 3 hour class, a lot of folks get a little further behind the farther in the class. If students have a chance to review, even a little before class, that can help them stay caught up. - Tie in text book reading. Not assignments, just something like 'you can find more example/detail of this in Chapter X of book' • Slides were busy and hard to follow. Too many colors/different text sizes/screenshots crammed together on one slide. Hidden slides shown in lectures but not provided in the lecture files to students is a bit dubious. Ok if you actually skip them but to intend to skip, then talk about them, they should be provided. • N/A • Be more clear with objectives of the assignments and class.
